

22nd UK meeting on Integrable and Conformal Field Theory and Related Topics

Cardiff University, June 1+2, 2018

www.lqp2.org/icft22

talks: room E/2.20, breaks: room M/1.04

Friday

- 1:30-2:00 arrival, coffee + lunch snacks
- 2:00-3:00 Kasia Rejzner (York)
Sine Gordon model from the perspective of perturbative algebraic QFT
- 3:00-3:10 break
- 3:10-3:50 Julia Cen (London)
Complex solitons, reality and degenerate structure
- 3:50-4:20 coffee break
- 4:20-5:20 Yoh Tanimoto (Rome)
Operator-algebraic construction of integrable QFT and CFT
- 5:20-5:30 break
- 5:30-6:10 Junpeng Cao (Beijing)
Off-diagonal Bethe ansatz solution of high spin Heisenberg model with generic integrable boundaries
- 8:00 dinner at La Cuina

Saturday

- 9:15-10:15 Ana Ros Camacho (Utrecht)
On a first example of tensor equivalence within the Landau-Ginzburg/CFT correspondence
- 10:15-10:25 break
- 10:25-11:05 Thomas Gemunden (Zürich)
Orbifolds of lattice vertex operator algebras with sparse light spectrum
- 11:05-11:35 coffee break
- 11:35-12:15 Sam Fearn (Durham)
A supersymmetric index for 2d theories with large $N=4$ superconformal symmetry
- 12:15-12:25 break
- 12:25-1:25 Cornelius Schmidt-Colinet (Munich)
Renormalisation group interfaces in conformal field theory
- pub lunch
